三、閱讀測驗:每題兩分共十八分

1.

**About the Appearances**

People in the world are all different. Some people are short and other people are tall. There are people with brown eyes as well as people with blue eyes. Why? That's because their genes design the eye colors.

The genes also control our weight, our height, and our appearances. For example, the average height of men in the Netherlands is 185 centimeters tall. They are the tallest people in the world. And the average height of men in Taiwan is only 171. Their skin colors and eye colors are also very different.

<p>  world 世界 as well as 和 why 為什麼          because 因為 gene 基因 design 設計          control 控制 weight 體重 example 例子          average 平均 tallest 最高的 skin 皮膚       </p>
